DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Kitajima et al.

Kitajima et al disclose an image forming apparatus comprising first through third doors (i.e. access doors 6a, 6b, 6c, 100b, Fig. 2, Col. 9, lines 45-65) to access disposables (i.e. toner container 1, drum apparatus 100, Fig. 2) and a fourth door 100a to access a sheet transport unit (i.e. element P, Fig. 6).

Kitajima et al further disclose first through fourth doors (i.e. see top cover for document scanning, left cover 711, and front cover shown in Fig. 48) can be provided to open left, top, front, and right sides of the apparatus's housing.

Allowable Subject Matter

3. Claims 1-15 are allowed.
4. Claims 17-21, and 23-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 2852

a. With respect to claims 1-15 and 17-21: none of the prior art of record teaches first through third doors provided for mount or dismount the plurality of development units, the photosensitive drum unit and intermediate transfer unit, and the waste toner storage container respectively.

b. With respect to claim 28: none of the prior art of record teaches the disposables are mountable and dismountable through the first through third doors in first through third directions perpendicular to each other, respectively.

Response to Arguments

6. Applicant's arguments, filed 9/6/05, with respect to the rejection(s) of claim(s) 16, 17, and 22 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Kitajima et al.
